What Are The Differences Between Pages & Spreads?

A **PAGE** is the left or right side of a **SPREAD**

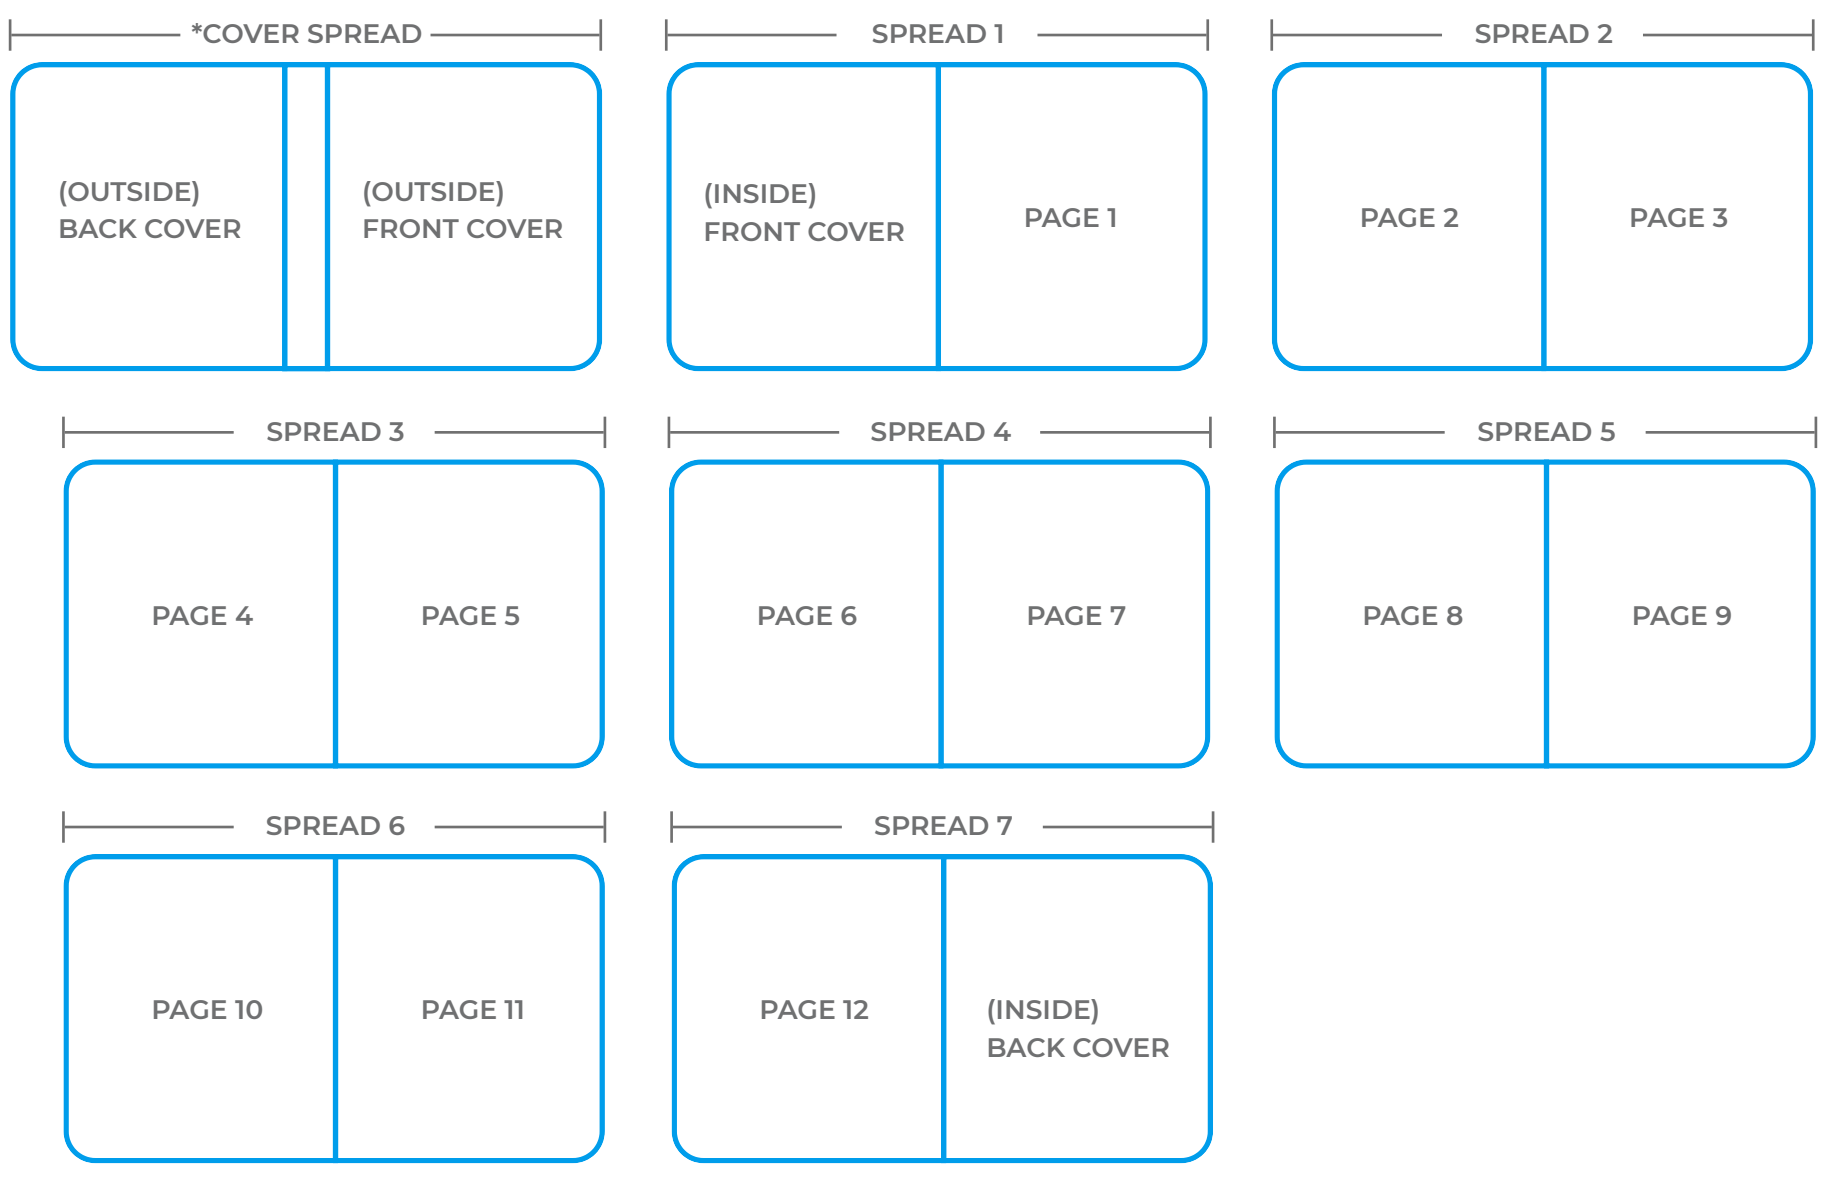

A SPREAD consists of two pages viewed together.

How to Count Pages & Spreads

Front and Back Cover
The front and back cover are considered 1 spread

Here is a visual to illustrate the number of pages and spreads in a 12 page book

To calculate the page count, do NOT include the front cover and back cover in your tally.

In our example, the 7.5” x 7.5” board book with **7 spreads** has **12 pages** (not including the inside and outside cover)
